## Timber Door Fire Seals with Pile - Fire, Smoke \& Acoustic Pile Range

Pyroplex ${ }^{\circledR}$ Pile range of Rigid Box Seals provide a traditional fire, smoke and acoustic seal for fire rated timber door edges and frames. The range includes a selection of sizes including the wider, more traditional solutions. They are suitable for rebates in single and double action, single or double doors. Pyroplex ${ }^{\circledR}$ Rigid Box Seals are ideal for new build applications.
Pyroplex® Pile range of Rigid Box Seals are supplied in $2.1 m$ lengths as standard, and are quick and easy to fit with no special tools required. The Pile range provides fire, smoke and acoustic seals which have been tested to BS 476: Part 20/22, BS 476: Part 31.1, BS EN 1634-1, BS EN 1634-3 and BS EN ISO 10140-2:. Compliant with CERTIFIRE technical schedule TS35 and TS21.

Certifire Certificate No. CF355 (Available on our website to download atwww.pyroplex.com)

## FIELD OF APPLICATION

Pyroplex ${ }^{\circledR}$ Pile range of Rigid Box Seals have been specifically designed for use in the following applications:

- Rebates in timber door leafs or door frames
- Use on single and double action leaf doors
- Use on latched and unlatched doors
- New build and retro-fit applications
-Durability performance in accordance with Certifire Technical Schedules as outlined in CF355

## PRODUCT FEATURES

-30 and 60 minute systems available

- Provided with rigid box outer for added durability
- Supplied with a self-adhesive backer for ease of application
- Cut to $2.1 m$ as standard
-Identification on each product ensures full traceability
-Available in a range of colours - Black, White, Brown, Grey, Red and Cream

## INSTALLATION INSTRUCTIONS

1. Select the appropriate seal using the door test evidence, to identify the size of intumescent seal required.
2. The seal needs to be located centrally in either the door leaf or frame.
3. Route a groove suitable for the size of intumescent seal selected. Clean the rebate to remove any dust. Remove the self-adhesive backing liner from the product and push fit into the routed groove.
4. To achieve excellent adhesion, seals must be applied to clean, dry surfaces at temperatures between $+5^{\circ} \mathrm{C}$ and $+40^{\circ} \mathrm{C}$.

## QUALITY APPROVAL

Pyroplex Limited have a Quality Management System that meets the requirements of ISO 9001 and an Environmental Management System that meets the requirements of ISO 14001, both are independently verified by BSI Quality Assurance under Certificate Numbers FM 10371 and EMS 637894. Copies of these certificates are available on our website to download at

## TECHNICAL DATA

Chemical composition: The active element is high-pressure forming, multi-directional expandable graphite contained within a high performance durable polymer.
Outer container: 0.5 mm PVC-u outer casing, which has a proven performance in terms of durability, along with a high performance acrylic adhesive to aid installation.

Life cycle: 10 years, providing the seal is installed in accordance with the requirements given in these guidance notes.

## MAINTENANCE AND INSTALLATION RECORDS

As this product is not subject to routine and replacement programmes, Pyroplex Limited recommend that all firestopping materials are checked regularly to ensure that the product remains integral. Replace and fit any damaged components to reinstate the fire resistance or smoke sealing performance.

## PRODUCT GUARANTEE AND TRACEABILITY

Providing the product is installed in accordance with the requirements of the guidance document, the product is guaranteed for a period of 10 years. All Pyroplex ${ }^{\circledR}$ products are identified with a unique reference number for traceability purposes.

## TECHNICAL SUPPORT AND GUIDANCE

Should you require any further information regarding this product, please contact Pyroplex Limited or visit our website, www.pyroplex.com

Eye protection: Not applicable.
Skin protection: Not applicable.
PHYSICAL AND CHEMICAL PROPERTIES

| Form | Solid |
| :---: | :---: |
| Colour | Black |
| Odour | Acidic |

## STABILITY AND REACTIVITY

Conditions to be avoided: Thermal decomposition above $+300^{\circ} \mathrm{C}$.
Hazardous decomposition products: Thermal decomposition, fumes contain Hydrogen Chloride. However, the activated graphite is effective at removing aromatic particles from smoke emissions.

## TOXICOLOGICAL INFORMATION

Acute toxicity: Not applicable in solid state.
ECOLOGICAL INFORMATION
General advice: Observe the legal provisions regarding the prevention of ground water and surface water as well as air. Do not discharge product into natural waters without pre-treatment.

## DISPOSAL CONSIDERATIONS

Recommendations: Disposal by means in accordance with local regulations e.g. suitable deposition.

## TRANSPORT INFORMATION

Transport hazards: No regulations apply for the transport of this material. Not classified as hazardous for road, rail, sea or air transport.

## REGULATORY INFORMATION

| Labelling according to EEC directives |  |
| :---: | :---: |
| National legislation/regulation | Not applicable |
| VbF classifications | None |
| Water hazard class | Not applicable |
